Article Numbers: 188943, 188942, 188941

Safety Instructions:

- The lamp is not suitable for use in damp rooms. Avoid direct contact with water to prevent electrical faults.
- Ensure that the lamp is properly connected to the power supply and is only operated with the intended mains voltage (200-240 V). Observe the maximum voltage of 240 V to avoid electric shocks.
- The lamp must not be used or manipulated by children. There is a risk of suffocation from small parts of the lamp and improper use as a children's lamp.
- Keep flammable materials away from the lamp.
- Check the power supply unit and cable regularly for damage. In the event of a defect or unusual noises, disconnect the lamp from the power supply immediately.
- Ensure that the mounting is stable to prevent it from falling over. The light should be securely fastened to the tabletop to avoid the risk of falling.
- Avoid looking directly into the LEDs to prevent eye injuries.
- Not suitable for commercial use, for private use only.
