Safety Instructions:

- Only use the product in accordance with the intended technical specifications and intended applications in order to avoid overloading and structural damage.
- Ensure that the load capacity per pair of uprights is not exceeded. Maximum loads: 1545 kg, 1818 kg, 2082 kg, 2090 kg, 2400 kg, 2463 kg, 2595 kg, 3000 kg, 3077 kg, 3143 kg, 3750 kg, 4000 kg.
- Regularly check the integrity of the box profiles, hooks, connections, agraffes and locking pins for wear, damage or deterioration.
- Ensure that the locking pins are inserted correctly to prevent them from accidentally falling out or tipping over.
- The product is not intended for use by children. Keep it safe and note that it is not suitable for children under the age of 12.
- Assembly and installation should only be carried out by specialised or qualified personnel.
- Use suitable personal protective equipment to prevent injuries when handling heavy loads.
- Follow the instructions for installation and use and keep the instructions for use in a safe place.
- The use of box profiles with welded-on agraffes requires special attention when distributing the load in order to prevent slipping.
- Avoid overloading the shelving systems. Inspection before use is recommended.
- Keep the product away from water and moisture to prevent corrosion.
- Only use on stable and level surfaces to avoid tipping over.
- Protect the spar pairs from physical damage and extreme environmental influences for structural safety.
