**Article Numbers:** 657315, 657314, 657313, 657312, 657311, 657310, 657309, 657308

### Safety Instructions:

- Ensure that the crash barrier is installed correctly and stably to avoid safety risks and tipping over.
- Regular inspections of the crash barrier for unstable fastenings, visible damage or wear must be carried out.
- Use the screws and anchors supplied for installation and only have them installed by qualified personnel to ensure stability and safety.
- Wear suitable personal protective equipment such as gloves and safety goggles when installing and using the crash barrier to protect yourself from sharp edges and other hazards.
- Keep the area around the crash barrier free of obstacles and check that all parts are complete before installation to ensure maximum safety.
- The crash barrier is only to be used for simple pallet racking and the intended purpose. Other applications or improper use can cause injuries.
- Before assembly, ensure that the floor is level and stable and that the product is securely mounted to the shelf structure.
- Follow the manufacturer's installation instructions and provide warnings on the proper use and care of the product.
- Not suitable for people who are not confident in handling shelving and keep away from children.
- Do not install in the immediate vicinity of traffic routes or other sources of danger.
