Article Numbers: 657384, 657383, 657382, 657381, 657380, 657379, 657378, 657377, 657376, 657375, 657374, 657373, 657372, 657371

Safety Instructions:

- Ensure that the rear panel is correctly and securely mounted on the upright frame to prevent stored goods from falling. Regularly check the stability and fastenings.
- Observe DGUV regulation 108-007 (BGR 234) for protection against falling stored goods. The rear panel is required from a height of 2000 mm.
- Use the spacers supplied to maintain a distance of 150 mm from the rear attachment to the frame. Fit the spacers correctly to ensure stability.
- Make sure that the mesh size of 50 x 50 mm is maintained to ensure safety.
- Risk of suffocation due to falling stored goods or improper handling of small parts.
- Installation may only be carried out by specialised personnel and suitable protective equipment (e.g. safety gloves) must be worn during installation.
- Regularly inspect the wire mesh back panel for damage or deformation to ensure the integrity of the safety function.
- Store goods in accordance with the recommended height and the permissible storage regulations.
