Please note the technical data of the products!

Article Numbers: 657110, 657109

Safety Instructions:

- Ensure that the maximum load capacity of 900 kg is not exceeded.
- Ensure that the load capacity of 500 kg is not exceeded in order to avoid hazards due to overloading.
- Ensure that the chipboards are securely and correctly positioned on the depth support.
- Use the correct fastening elements to ensure the stability of the support.
- Do not use for load-increasing applications that can lead to an unstable situation.
- Wear suitable protective gloves when lifting the depth support to avoid injury.
- Avoid using the depth support on uneven or unstable surfaces to prevent it from tipping over and causing injury.
- The depth support should only be used by qualified personnel.
- Check the depth support regularly for damage before using it.
