Safety Instructions:

- Only use the product in accordance with the specified assembly instructions to ensure the safety and stability of the shelves.
- Ensure that the product is correctly assembled and check regularly for loose parts or damage.
- Observe the safety distances during installation to avoid injuries.
- Only suitable for professional use; installation should be carried out by trained personnel.
- The product must be used on stable and suitable surfaces to avoid the risk of tipping.
- Follow the steps in the assembly instructions exactly to ensure the stability of the shelf.
- Ensure that the shelving is placed on a level surface and is not overloaded.
- Only use the fixing material included in the scope of delivery to ensure safety.
- The stability of the shelving modules and the correct installation of the spacers should be checked regularly.
- Ensure that the recommended number and correct condition of the spacers is maintained depending on the shelf height.
- The spacers can only be used in combination with compatible double shelves and should be checked regularly for wear.
