Safety Instructions:

- Observe the safety instructions for use to avoid the risk of injury due to improper installation.
- Do not exceed the load capacity to avoid stability problems. Observe the maximum permissible load.
- Use only for the intended use as a shelf and comply with the manufacturer's guidelines.
- Ensure that all components are properly installed and secured before use.
- Use aids to support heavy loads and carry suitable tools.
- Only use the shelf supports supplied to ensure safety and stability.
- Keep the shelf away from moisture and extreme temperatures.
- Carry out regular inspections for damage, especially on galvanised surfaces.
- Check for damage before first use and follow the assembly instructions carefully to prevent tipping over.
- Keep children away from the product to prevent injury from improper use.
- Installation and use must take place in dry, well-ventilated areas in order to avoid moisture damage.
- Ensure that the product meets the technical requirements and contains clear, understandable instructions.
- Regularly check the stability of the shelf and replace defective parts immediately.
- Avoid using the product beyond its intended use.
- Wear suitable protective equipment during installation to avoid injury from sharp edges.
- The product is only suitable for indoor use.
- Correctly fitted shelf supports are required to prevent slipping and injuries.
- Store the product safely to avoid the risk of it falling over.
- Ensure that no heavy objects are stored on the upper shelves to ensure stability.
