Safety Instructions:

- Mount the shelf stably and correctly on a level surface to prevent it from tipping over.
- Do not exceed the maximum load capacity and shelf load to avoid stability problems.
- Protect the shelf from moisture, heat and direct sunlight to prevent material damage.
- Check shelving regularly for damage, wear and stability.
- Only use the shelf for its intended purpose and loads in accordance with the specifications.
- Keep children and pets away from the shelves to prevent injury.
- Secure shelves to the wall to prevent them from tipping over.
- Carry out installation exactly according to the manufacturer's instructions, consult a specialist if necessary.
- Avoid excessive loads and unauthorised loads to prevent overloading and tipping.
- Avoid sharp edges and use protective equipment during assembly.
- Keep the area around the shelf clean to avoid tripping hazards.
- Clearly provide and follow safety and usage instructions.
- Use only by trained personnel, especially in commercial facilities.
