Safety Instructions:

- The shelf may only be set up on a stable and level surface to prevent it from tipping over.
- The maximum load of 150 kg per shelf must not be exceeded.
- Check all connections and fastenings regularly to ensure that they are secure.
- Carry out the installation in accordance with the enclosed instructions to ensure safety.
- Keep children and pets away from the product to prevent injury.
- The product is not suitable for use outdoors or in damp environments.
- Check products regularly for wear and tear or damage to minimise safety risks.
- Suitable personal protective equipment, such as gloves and safety shoes, must be worn during installation.
- Ensure that the product is properly installed and maintained.
- Shelf protection from direct sunlight, extreme temperatures and moisture to prevent corrosion.
- Only use the product in accordance with the installation and operating instructions provided.
- Provide safety information in a language that is easy to understand.
- Ensure that the storage technology is installed in such a way that it cannot tip over.
- Make sure that the shelf is properly anchored to the wall to prevent it from tipping over.
- Avoid overloading the shelves above the recommended load capacity of 150 kg per shelf.
- Read the installation and operating instructions carefully to ensure safety.
- Suitable for adults only; do not use the product for children under 12 years of age.
- Keep the work area free of obstacles to avoid accidents.
- Observe the stability and integrate the safety warnings into the use.
