Safety Instructions:

- Ensure that the monitor mount is correctly installed to avoid the risk of falling.
- Keep the table clamp and other fastening elements out of the reach of children to minimise the risk of suffocation.
- Avoid exceeding the load limit of 8 kg per display to prevent structural damage and safety risks.
- Regularly check the fixings and stability of the monitor arm to ensure loss of safety in use.
- The products are not suitable for children under 36 months as they may contain small parts.
- To securely fasten the monitor arm, make sure that the table clamp is firmly tightened to prevent it from tipping over.
- When attaching the displays, pay attention to the VESA quick-release plate to prevent accidental slipping.
- Make sure that the cables are neatly routed through the integrated cable guide to minimise tripping hazards and ensure electrical safety.
- Take note of the ergonomic adjustment options to reduce neck and back pain.
- Keep small children away from the product to avoid the risk of injury.
- The monitor arm should only be set up and adjusted by a person with appropriate expertise.
