Please note the technical data of the products!

Article Numbers: 460368, 460367

Safety Instructions:

- Before using the container, ensure that the maximum permissible load of 2000 kg is not exceeded and that there is a risk of injury if the container is overloaded.
- Place and store the container on a stable and level surface to prevent it from tipping over.
- Use suitable lifting equipment and ensure correct lifting techniques to avoid injury during filling, emptying and handling.
- The underride height of 100 mm must be observed for transport.
- When using with crane eyes, ensure correct positioning and stability.
- When stacking, make sure that the stack is no higher than six containers to ensure stability.
- Ensure that the container is protected from extreme weather conditions to prevent material damage.
- Always follow the instructions for safe handling and emptying of the container.
