Safety Instructions:

- Ensure correct posture when lifting to avoid injury.
- Use suitable aids such as pallet trucks or forklifts to move heavy loads safely.
- Ensure that the mesh container is placed on a stable surface and cannot tip over.
- When using the hinged wall, ensure that it is properly locked to prevent accidental closing.
- Do not exceed the maximum load of 1000 kg to avoid damage.
- Use under suitable conditions and avoid overloading.
- When stacking, observe the maximum stacking height and the permissible weight.
- Avoid structural damage by not applying excessive force or shaking the mesh container.
- Only fill with suitable material to avoid damage.
- Keep small children away, as the mesh container can be a source of danger.
- Be aware of the risks posed by electrical components when using in the vicinity of electrical appliances.
