Safety Instructions:

- Caution: Sharp edges and corners can cause injuries. Take the necessary precautions to avoid possible cuts from sharp edges of the steel grille.
- Do not exceed the maximum load of 1000 kg to avoid structural and safety risks.
- When using the hinged wall, ensure that no body parts are trapped between the wall and the frame.
- Improper stacking of pallet cages can cause them to topple over. Observe the instructions for stackable use. Do not stack if the load frame is damaged.
- Wear suitable protective equipment when handling the mesh box pallet to avoid injury.
- Use only on stable surfaces to avoid tipping over.
- Careful handling during loading and unloading to avoid injuries.
- Carry out regular checks for possible damage to ensure safety.
