Article Numbers: 460388, 460387

Safety Instructions:

- Only use for the transport of goods up to 1500 kg and observe the maximum load capacity.
- Before use, ensure that the lifting eyes are properly fitted and in good condition.
- The hinged longitudinal wall may only be used in the intended area of application.
- Do not exceed the maximum recommended stacking height of 5 containers.
- Before stacking, make sure that the base is stable and level and ensure that the containers are stacked correctly to prevent them from tipping over.
- Observe the necessary protective measures when handling heavy goods and use suitable personal protective equipment (PPE).
- Keep the product out of the reach of children.
- Avoid improper handling to prevent hazards during transport and stacking.
- Ensure that the products are only handled by trained personnel.
- The underride height of 105 mm must be observed in order to guarantee safe handling with forklift trucks.
