Please note the technical data of the products!

Article Numbers: 460390, 460389

Safety Instructions:

- Risk of tipping over when stacking more than five containers. Ensure stability when stacking the containers to prevent them from tipping over.
- Risk of serious injury due to improper use and overloading over 1500 kg. When using the container, the maximum load limits of 1500 kg must be observed.
- Ensure that the transport and storage conditions do not jeopardise the safety of the product. Ensure that the containers are securely fastened during transport to prevent them from slipping.
- The use of suitable lifting and transport equipment (e.g. forklift truck or crane) is recommended.
- The inner surfaces of the container should be checked regularly for damage or corrosion.
