Safety Instructions:

- Maximum load capacity: 800 kg. Distribute loads evenly and stably to prevent structural damage and overturning.
- When stacking, observe safety requirements, especially when stacking the containers 5 high, to prevent injuries from tipping over or falling.
- Use suitable lifting equipment to avoid injury.
- Make sure that the container is stable to prevent it from falling over during the loading process.
- Read the operating instructions carefully and follow the safety instructions.
- When using with a crane, ensure that the crane eyes are correctly attached and that the load does not exceed the maximum load capacity.
- Keep the underride area (105 mm) clean and free of obstacles for safe entry with forklift trucks.
