Article Numbers: 461462, 461461

Safety Instructions:

- Use only with sufficient stability and on a level surface to prevent tipping.
- Do not exceed the maximum load (1200 kg).
- In the event of corrosion, check immediately and replace the product if necessary.
- Suitable for storing building materials, but these should be securely fixed.
- Not suitable for use in damp or corrosive environments unless treated accordingly.
- Do not use the product to lift or move people.
- Only move with suitable means of transport.
- Keep hands away from the edges of the frame to avoid crushing.
- Make sure that the frame is standing on a stable, level surface.
- Users should wear suitable personal protective equipment (PPE).
- Take care when stacking several racks to avoid instability.
- Ensure that no parts of the body are trapped between the shelving system and the supporting structure when moving the shelving.
