Safety Instructions:

- Assemble the office chair correctly and pay attention to safety requirements to avoid the risk of injury.
- Do not exceed the maximum load of 110 kg to avoid overloading.
- Only use the safety lift in accordance with the manufacturer's instructions and check it regularly to avoid the risk of injury.
- Do not use armrests as a support and do not exert unnecessary pressure on them to minimise the risk of falling and loss of stability.
- Do not exceed the recommended sitting time of 8 hours to minimise health risks.
- Ensure that the backrest and seat height are set correctly and adjust them regularly to ensure ergonomic comfort and avoid neck and shoulder complaints.
- Use only in accordance with the manufacturer's instructions.
- The chair must be placed on a stable, level surface in order to be safe.
- Keep away from children, as small parts can pose a choking hazard.
- Watch out for sharp edges and moving parts to avoid the risk of injury.
- The castors must be used on carpeted floors to prevent damage.
- Regularly check the backrest and seat for damage and wear.
