Safety Instructions:

- Keep magnetic surfaces away from unsuitable areas to avoid damage.
- Not suitable for children under 3 years of age, as small parts may pose a choking hazard.
- Pay attention to the temperature during use, only use between -29°C and +118°C to avoid damage.
- Avoid direct sunlight to prevent colour changes or fading.
- Protect the product from moisture, extreme temperatures and strong mechanical influences.
- Not suitable for use by children, caution is advised when used by children.
- Do not use sharp objects to insert documents in order to avoid damaging the PET film.
- Magnetic adhesion may be impaired on very smooth or greasy surfaces, regular inspection recommended.
- Use only for the intended purpose, improper use may result in damage.
- Keep and follow the safety information and operating instructions.
