Safety Instructions:

- Observe the maximum user height (up to 1.92 m).
- Do not exceed the maximum load capacity (up to 110 kg).
- Observe the recommended duration of use (maximum 4 hours/day).
- Ensure that there are no small parts that could cause a choking hazard.
- Adjust ergonomically correctly to avoid back pain.
- Keep instructions for use and safety instructions available in an understandable language.
- Affix the product information clearly visible and check regularly that the safety features are uniform.
- Observe safety measures when adjusting the seat height to avoid injuries.
- Ensure that the stool stands securely to prevent falls.
