Article Numbers: 464518, 464517, 464516

Safety Instructions:

- On-site floor anchoring required for safe standing and stability of the partition wall.
- Follow the technical installation instructions to avoid injuries and stability problems during installation.
- Materials comply with fire protection regulations (flame retardant). Do not use naked flames or ignition sources in the vicinity.
- Acoustic walls can be damaged if handled improperly, so handle with care.
- Dispose of product residues in accordance with local waste management regulations.
- Do not install near damp areas. Avoid use in environments with extreme temperatures or humidity.
- Keep a safe distance from aggressive chemicals to prevent material damage.
- Make sure that all parts are checked before assembly to ensure safety during use.
