Safety Instructions:

- Attention: Tripod (or board) should be stable to avoid tipping over.
- Avoid placing heavy objects on the tripod as this can lead to a risk of injury.
- The board must not be handled with sharp or pointed objects in order to prevent scratches or damage.
- Please ensure that the castors are properly locked to prevent unintentional movement, especially on sloping ground.
- When using the board, ensure that there is no excessive heat or moisture in the vicinity and that direct sunlight is avoided in order to maintain the integrity of the material.
- Do not use the product near water sources or liquids to avoid electrical hazards and damage to electronic components.
- Beware of small parts that can be used when assembling the product and pose a choking hazard for children.
- Choking hazard due to small parts that can be inhaled by children.
- The board should be used with the recommended markers in accordance with the manufacturer's instructions to avoid damage.
- Risk of falling due to the mobility and rotating function of the board.
- The product is made of materials from sustainably managed forests; note the environmentally friendly disposal.
