Safety Instructions:

- Only use safely with the appropriate expertise or under supervision.
- Maximum load is 75 kg per drawer. Overloading can lead to a risk of collapse.
- Use the central locking system and keep the key safe to prevent unauthorised access.
- Rubber mat prevents slipping on the worktop.
- Drawers must be checked regularly for functionality to ensure safe use.
- Include installation and usage instructions to avoid improper use.
- Observe safety precautions when opening the drawers to avoid crushing.
- When setting up the cabinet, observe stability requirements and, if necessary, floor securing.
- Ensure that the drawers are stable when fully extended to prevent them from tipping over.
- Be aware of the risk of suffocation due to improper use of the keys or small parts.
- Include clear and understandable safety instructions.
