Safety Instructions:

- Risk of suffocation due to improper handling or inadequate securing of small parts.
- Risk of injury due to crushing, cutting or trapping when adjusting the height.
- Maximum load capacity: 500 kg. This must not be exceeded in order to avoid accidents or damage.
- Use the table on stable, level surfaces to avoid accidents.
- Keep the work area clean and avoid the risk of slipping due to oil, grease or slippery substances.
- Keep out of the reach of children and only use under supervision.
- Observe heat and fire protection measures when using with hot materials.
- Use suitable personal protective equipment (PPE) such as gloves and safety goggles for heavy or mechanical work.
- Ensure that all parts are properly assembled before use to avoid injury.
- Do not use the table in wet or extreme environments with aggressive chemicals.
- Electrical appliances that are combined with the table must comply with the applicable safety standards.
- Make sure that no body parts get caught between moving parts.
- Ensure ergonomic use by adhering to the insert height of 760 mm to 1080 mm.
- Avoid tripping hazards and ensure stable handling when moving or adjusting the height.
