### **Safety Instructions:**

- Max. Load capacity: Do not exceed 150 kg to avoid damage and injury.
- Only service electrical components when the power supply is switched off and leave this to qualified personnel.
- Electric height adjustment may only be used by qualified personnel and without persons in the danger zone.
- Avoid electrical and damp environments; no electrical height adjustment in thunderstorms or wet conditions.
- Ensure installation on a stable, level surface; the table may tip over.
- Protect linoleum flooring from sharp or pointed objects and aggressive chemicals; clean regularly.
- Keep the table load evenly distributed, overload control necessary.
- The table is not suitable for use by children.
- Maintenance and inspection of the electrical components must be carried out regularly by qualified personnel and checked for damage.
- Follow the instructions for installation and use to ensure safe use.
