Safety Instructions:

- Avoid the risk of injury from crushing when adjusting the height by following the instructions and not pinching any parts of your body.
- Maximum load: Do not exceed 150 kg to prevent structural damage and injury.
- Ensure that the product is used on a stable, level surface to avoid the risk of tipping.
- Regularly check the electrical components for damage and excessive contact with water to avoid the risk of electric shock.
- Carefully read and follow the installation and operating instructions to avoid improper use and risk of injury.
- Electrical height adjustment and its handling may only be carried out by qualified persons and under supervision.
- Keep the area around the table free of obstacles to reduce the risk of tripping.
- Avoid loose clothing or jewellery during use to prevent entanglement.
- Product not suitable for home use, but only for commercial use.
- In the event of electrical faults, take the table out of operation immediately and contact the manufacturer.
- Ensure product safety for children under 12 years of age by avoiding their use.
