Safety Instructions:

- Assemble the product according to the instructions to ensure manufacturer safety and avoid injury.
- Do not exceed the maximum load capacity of 450 kg to avoid structural damage and risk of injury.
- Ensure that the working height is set correctly to prevent ergonomic risks and falls.
- Carry out the correct height adjustment in accordance with the instructions to avoid the risk of injury and crushing.
- Check regularly for damage, wear and stability to ensure safety.
- Avoid the risk of slipping due to slippery surfaces and keep the workplace free of sources of danger.
- Only use the table for its intended purpose and in accordance with the instructions.
- Wear protective clothing when installing and handling sharp or heavy objects to avoid injury.
- Make sure that the table is placed on a stable surface to prevent it from tipping over.
- Intended for commercial use. Use by children only under supervision.
- Make sure that the weight is evenly distributed to ensure optimum stability.
- The product is not suitable for damp or wet environments to avoid damage to the chipboard.
- Keep a safe distance from heat sources that could damage the melamine coating.
- Secure the table when adjusting the height in accordance with the operating instructions to avoid the risk of crushing.
