Safety Instructions:

- Observe the maximum surface load of 450 kg to avoid overloading and possible accidents.
- Proceed with caution when adjusting the height and ensure that the trolley is stable to prevent injuries and tipping over.
- Ensure that the swivel castors are working properly and check their functionality regularly, especially the brakes, to ensure safety when stationary.
- When using the product, watch out for potential tripping hazards and only use it on a level surface to prevent it from tipping over.
- Carefully read and follow the assembly instructions before first use to avoid improper assembly and the associated risks.
- When used in the food sector, ensure that the surface remains clean and hygienic.
- The product is not designed for use by children and should be kept out of their reach.
