Safety Instructions:

- The light is only suitable for indoor use and must not be used in damp or wet environments (protection class IP20).
- When installing, ensure that the light is not operated near water sources or flammable materials.
- Do not cover or conceal the light and keep it away from direct heat sources to avoid overheating.
- Ensure that the voltage corresponds to the technical specifications.
- Observe the applicable safety and installation regulations.
- The product must not be used by children without a supervisor present and should be installed out of the reach of children.
- In the event of damage, discontinue use and contact the manufacturer.
- Do not repair or modify yourself. A specialist should be consulted in the event of faults.
