Safety Instructions:

- Secure the U-shaped parker firmly to the ground to prevent it from tipping over and causing injury.
- Avoid overloading to ensure stability for up to 5 bikes.
- Keep children away to minimise the risk of injury from falling or improper use. Ensure that the U-frame parker is inaccessible to children.
- Ensure that bikes are parked correctly in the racks to prevent damage and accidents.
- Read the assembly instructions carefully to ensure safety during assembly.
- Draw attention to the risk of crushing when parking.
- Ensure theft protection through the proper use of the security mechanisms provided.
- Pay attention to the total weight when lifting or moving to avoid injury.
