**Article Numbers:** 659338, 659337, 659336, 659335

### Safety Instructions:

- Only use the chair on firm and stable surfaces to prevent it from tipping over.
- Maximum load capacity of the chair is 120 kg; do not exceed this to prevent structural damage.
- Ensure that no sharp or hot objects are placed near the upholstery to prevent damage.
- Avoid using the chair in damp environments to prevent damage to the cover and foam.
- Regularly check the stability, the connecting elements and the swivel mechanism of the chair to ensure safe use.
- Not suitable for children under 3 years of age due to choking hazard caused by small exposed parts.
- Pay attention to the behaviour of children; the chair is not specifically designed for children and should be kept away from them to minimise the risk of injury.
- Follow the instructions for safe assembly and handling of the chair.
