Please note the technical data of the products!

Article Numbers: 465032, 465030, 465028, 465026

Safety Instructions:

- Risk of suffocation due to improper use of the height adjustment. Height adjustment may only be carried out by authorised persons.
- Risk of electric shock in the event of improper handling or damage to electrical parts. Ensure that all electrical connections and components are securely and properly installed. Take care when using in damp environments to prevent electrical hazards.
- The product is intended for use in electrostatically sensitive environments. For the ESD version, observe the special safety measures for electrostatic-sensitive environments. Ensure safe handling of ESD-sensitive materials to avoid electrostatic discharges.
- The table is not suitable for use by children without supervision. Not designed for children or use by vulnerable persons; take particular care when using in their vicinity.
- Do not exceed the maximum load capacity of 200 kg. Observe protective measures when working with heavy loads.
- Safety information and instructions shall be provided in a language understood by consumers. Clear instructions and safety information that are understandable to consumers shall be provided.
- Risk of injury due to improper use as a height-adjustable table.
