Safety Instructions:

- The workbench is heavy. Secure the workbench to prevent it from tipping or falling over. Only use the workbench on a stable surface.
- Take care not to load the drawer above the maximum load capacity of 75 kg. Store heavy objects safely in the drawer.
- Ensure that the castors are securely fastened before moving the workbench. When using the workbench, ensure that the castors are properly locked.
- The mobile construction should only be carried out on firm, stable surfaces. Only use the castor set on level and firm floors.
- Protect the work surface from excessive heat and sharp edges.
- Avoid contact with water to prevent corrosion.
- Read the operating instructions carefully before use.
- Keep children away from the workbench to avoid injury.
- Protection against the risk of crushing when closing the drawer.
- Observe safety measures when transporting the workbench. Also observe the weight restrictions and safety precautions.
- Use of a safe set of castors for transport.
- Install the cross strut set according to the instructions for additional stability.
- If you have any questions about installation or use, please contact the manufacturer.
