Safety Instructions:

- Attention: Drawers with high load capacity, observe maximum load (75 kg). Do not overload drawers to avoid the risk of them tipping over or breaking.
- Take safety precautions when lifting and moving the workbench. Use suitable techniques during transport to avoid injury. Avoid lifting or moving the workbench while heavy objects are on it.
- Avoid standing work to prevent back injuries. The use of additional personal protection such as gloves is recommended.
- Set up out of the reach of children to minimise the risk of injury from improper use. The workbench is not suitable for use by children. The workbench may only be used by responsible adults.
- Observe the safety guidelines for the use of tools on the work surface. Ensure that no sharp objects or tools jeopardise safety during use. Avoid contact with sharp objects on the Multiplex board to prevent injuries.
- The stability of the workbench and drawers must be checked regularly. The workbench should be checked regularly for damage and wear.
- Please note that the workbench must be set up on a level surface to avoid the risk of tipping.
- Hold the drawers out of the cabinet by hand when closing them to avoid the risk of crushing.
- Take care not to place any heavy objects on the workbench, as this can lead to instability.
