Safety Instructions:

- Ensure that the workbench is placed on a stable, level surface to prevent it from tipping or wobbling.
- Keep small children away when the drawers are opened to prevent injury.
- Make sure that the load capacity of the drawers (maximum 75 kg) is not exceeded in order to avoid damage or accidents.
- Regularly check the fastenings and the condition of the workbench to ensure safe use.
- Avoid the use of chemical cleaning agents that could damage the surfaces.
- Use suitable aids when lifting or moving the workbench or involve several people to avoid injury.
- Use personal protective equipment (PPE) such as gloves and safety goggles when working with tools or heavy materials.
- Keep the work surface clean and free of hazardous objects and liquids to avoid accidents.
- Avoid using the workbench for anything other than industrial applications.
- Carry out regular maintenance and inspection of the drawer mechanisms and worktop.
- Maintain an appropriate posture when working to avoid injury.
- Use at least two people during assembly and installation to prevent injuries.
- Do not set up the workbench near water sources or damp environments.
