Safety Instructions:

- Use the product safely to avoid injury.
- Regularly check and maintain the stability and safety of the workbench, including drawer and door mechanisms.
- Always close drawers and doors properly to prevent tipping, injury or unwanted opening during use.
- Do not exceed the load capacity of the drawer (max. 75 kg) and the shelf; also observe max. 75 kg for the worktop.
- Keep children away from the workbench; place products out of reach of children to avoid injury.
- Do not overload the workbench and use it on stable surfaces to ensure stability and safety.
- Watch out for sharp edges and corners as well as wood splinters or damage to avoid injury.
- Do not use the product near water or damp places; protect the worktop from extreme temperatures and sharp objects to prevent deformation or damage.
- When assembling the workbench, ensure that all parts are firmly connected.
- Ensure that the height of the box-type workbench is properly adjusted to reduce the risk of falling.
- Provide training on safe use for users, especially when handling heavy tools and materials.
