Safety Instructions:

- The workbench must be placed on a stable and level surface. If it is not placed correctly, it may tip over. Ensure that all screws and connections are firmly tightened.
- The maximum load capacity of the drawers is 75 kg. Take care not to exceed this load capacity in order to avoid damage or mechanical hazards.
- Keep hands away from highly mobile parts to avoid the risk of crushing. Take care when attaching and removing heavy objects.
- Children should not have access to the workbench in order to avoid injuries or accidents. Small parts in the drawers can pose a choking hazard for children.
- The workbench is not suitable for outdoor use. Avoid direct sunlight and moisture, especially as the multiplex surface is sensitive to moisture.
- Drawers are not designed for the storage of sharp or dangerous tools. Please use specialised storage solutions for such items.
- Ensure that the height-adjustable frame is correctly adjusted to ensure stability, otherwise it may become unstable.
