Safety Instructions:

- Ensure that the workbench is placed on a stable and level surface to prevent it from tipping over and test the stability of the structure before use.
- Do not overload drawers; observe the maximum load capacity of 75 kg to minimise damage or injury.
- Take protective measures to avoid injury from sharp edges or corners and use personal protective equipment if necessary.
- Do not use the box-type workbench in areas with high humidity and do not clean the worktop with aggressive chemicals to avoid damaging the material.
- Check the workbench regularly for wear and damage, in particular check the wooden worktop for cracks.
- Provide user instructions and safety information in accordance with the applicable regulations.
- Adjust the height of the workbench to avoid back injuries.
- Do not use the workbench as a lifting platform or climbing frame.
- Ensure that all assembled parts are properly secured before using the workbench.
- Prevent children from accessing the workbench and drawers to avoid the risk of injury.
- Securely lock reinforced doors to prevent unintentional opening.
- Designed for use in commercial environments; not recommended for home use without professional guidance.
