Safety Instructions:

- Make sure that the bracket is mounted stably to avoid injury.
- Do not exceed the maximum load of 20 kg per monitor.
- Attach monitors securely to the bracket and VESA mount to prevent them from falling.
- Lay and secure cables properly to avoid tripping hazards.
- Make sure that the table top fulfils the thickness requirements for the attachment.
- Ensure that all screws and brackets are firmly tightened before attaching monitors.
- Do not overstress the arm when adjusting it to avoid damage.
- Avoid using the monitor arm in extreme positions.
- Take care not to pinch any parts of the body when adjusting the arm.
