Safety Instructions:

- The shelf should only be installed by qualified personnel.
- To avoid injury, all parts must be properly assembled and secured.
- When adjusting the height of the shelf, ensure that the load-bearing capacity of the shelf is not exceeded.
- Edges and surfaces of the shelf must be checked for damage after installation.
- The product may only be used for its intended purpose.
- Avoid excessive loads that could jeopardise the stability of the shelf.
- Safety information and installation instructions must accompany the product.
