Please note the technical data of the products!

Article Numbers: 465104, 465103, 465102, 465101, 465100

Safety Instructions:

- No direct contact with food to protect against possible chemical contamination.
- Protect from direct sunlight and extreme temperatures to avoid material changes.
- Avoid use at extreme temperatures outside the specified range of -20 to 95 °C.
- Ensure that the bucket is not overfilled to prevent the risk of spillages.
- Ensure that the lids are firmly closed to prevent liquids from leaking.
- Check for visible damage or cracks before each use.
- Do not place near sharp objects to avoid damage.
- Make sure the lid is securely closed to prevent leakage.
- Keep the bucket out of the reach of small children to avoid the risk of choking.
- Children should be supervised when handling the product to avoid injury from falling or crushing.
- Provide users of buckets in the chemical industry with special training on the handling and disposal of the contents.
- Not suitable for direct contact with food unless specifically stated.
- Suitable for food storage only, do not use for the storage of chemical substances unless expressly authorised by the manufacturer.
- Protect from direct heat or naked flames.
- Do not use at temperatures above 95 °C to avoid deformation or damage.
- Do not use for temperatures hotter than 95 °C.
- Could break if used improperly and cause injury.
- Ensure that the product is not exposed to excessive temperatures (above 95 °C).
- Risk of suffocation due to improper handling or storage of objects.
