Safety Instructions:

- Use only by trained personnel.
- Do not exceed the maximum load of 1600 kg.
- Use a safety device to prevent unintentional slipping and check it regularly.
- Take care when using near edges.
- Keep the product out of the reach of children.
- Read the operating instructions carefully before use and observe the safety instructions.
- Ensure that the drum stop is set correctly.
- Protect the product from unauthorised access.
- Ensure sufficient space and safety when handling filled drums.
- Ensure product safety and efficiency through regular maintenance and inspections.
- When using forklifts, ensure that the appliance is properly secured.
- Avoid overloading and improper transport to prevent accidents.
- Do not use on unstable surfaces or sloping surfaces.
- Only suitable for transporting filled plastic and conical lidded drums.
- Regularly check the robust construction for damage.
- There is a risk of suffocation from heavy drums if handled incorrectly.
- Adjust the drum stop safely and according to the instructions.
- Only use for the intended drum sizes (110 to 220 litres).
- Take particular care when transporting drums to avoid tipping.
