Article Numbers: 659955, 659954, 659953, 659952, 659951, 659950

Safety Instructions:

- Do not exceed the maximum load of 100 kg.
- Only suitable for transporting 60-litre steel bung drums.
- Ensure that the drum lifter is used with drums from 500 mm in height.
- Check the gripping device and rubber stop regularly for wear.
- Use the appliance on a stable and level surface.
- Use only by trained and authorised personnel.
- Observe safety measures to avoid injuries when using the drum lifter.
- Ensure that no parts of the body enter the working area of the drum lifter.
- Check for visible damage and functionality before each use.
- There is a risk of falls and injuries if handled incorrectly.
- Make sure that there are no people under the raised barrel.
- Read the operating instructions before use.
- Check the clamping force regularly to ensure that it is sufficient.
- Observe the safety device to prevent unintentional slipping.
- Check the product regularly for damage.
- Ensure safe handling with a suitable forklift truck.
- Ensure that the gripping device is correctly and securely attached to the drum.
- Make sure that the forklift driver has sufficient training and experience.
- Never drive over people or lift barrels overhead.
- Carry out regular inspection and maintenance of the drum lifter.
- Check drum bodies for damage before lifting them.
- Protect from moisture to prevent corrosion.
- Use of protective personal protective equipment recommended during handling.
- Do not use the drum lifter in areas with restricted visibility or crowded environments.
