Please note the technical data of the products!

Article Numbers: 659963, 659962, 659961

Safety Instructions:

- For use with compatible gas cylinders only.
- The wall bracket must be mounted securely and stably on the wall to prevent it from slipping or tipping over and to avoid the risk of it falling over.
- Before use, check the chain lock and secure it properly.
- The bracket is not suitable for use in damp or potentially explosive environments and must be kept away from heat sources and direct sunlight.
- Use only by trained personnel to minimise safety risks.
- Ensure that the gas cylinders are correctly and stably secured in the holder by using the integrated chain lock.
- Avoid overloading the wall bracket with heavier gas cylinders than specified.
- The holder is only suitable for the intended gas cylinders and must not be used for other purposes.
- Always store gas cylinders in a well-ventilated area to avoid gas accumulation.
- Ensure safe storage of the gas cylinder in accordance with the manufacturer's instructions.
- Only use for gas cylinders with a maximum diameter of 230 mm.
- The product is not suitable for use by children.
- Use suitable tools for installation to avoid injury.
