Article Numbers: 660466, 660465

Safety Instructions:

- LED lighting must not come into direct contact with water to avoid the risk of electric shock.
- Ensure that all electrical connections are installed safely and correctly to minimise the risk of electric shock.
- Ensure stable fastening in accordance with the installation instructions to avoid the risk of tipping over.
- Only set up the product on a firm and level surface to avoid the risk of tipping.
- Flammable material (acoustic fleece) should be kept away from open flames and high temperatures to avoid the risk of fire, even if the product is flame retardant.
- Ensure safe handling during installation and use; do not overload.
- Risk of suffocation due to small parts if handled or assembled incorrectly.
- In the event of damage to the partition wall or the lighting, take the product out of operation immediately.
- Include required safety information in a language easily understood by consumers.
- Correct attachment and installation by specialised personnel is recommended to avoid safety risks.
