Safety Instructions:

- Before commissioning, check for breakage and risk of falling due to damaged parts.
- Keep invitations away from children, as small parts may be present.
- Always position the appliance on a stable and firm surface when using it.
- Avoid exposure to water and moisture to prevent the risk of electrodes and short circuits.
- When using the appliance, always use the mains plug for operation and follow the instructions in the manual to avoid overloading and possible fire hazard.
- Do not overcharge the battery or store it near heat sources to avoid the risk of explosion.
- Follow the handling instructions for safe handling of the battery.
- Check the appliance regularly for damage and the condition of the electrical connections.
