

Product Safety Information

MAUL movable wall system MAULconnecto, plug-in modules, Velcro connection, stand, H 1800 x W 1000 mm, various modules & colors

Manufacturer/Responsible Person: Jakob Maul GmbH, Jakob-Maul-Str. 17, 64732 Bad König, Deutschland

E-Mail: contact@maul.de

Please note the technical data of the products!

Article Numbers: 660456, 660454, 660446, 660423

Safety Instructions:

- Place the partition wall on a level and stable surface to prevent it from tipping over or becoming unstable.
- Always follow the enclosed assembly instructions and only use the intended materials to minimise potential hazards and keep the structure stable.
- Regularly check the Velcro connection and all connections as well as the stand for functionality and stability, especially after repositioning.
- Do not use the partition wall as a support or ladder material to prevent damage and possible accidents.
- Do not lean any heavy or sharp-edged objects against the partition wall to prevent damage to the system.
- Keep the area around the movable wall free of obstacles to minimise the risk of tripping.
- In the case of high public traffic or in office environments, ensure a safe choice of location and appropriate height to avoid the risk of injury and collisions.
- Observe the safe handling of tools during assembly and, if possible, use tool-free mechanisms to increase safety.
- Avoid overloading the partition wall system with additional weights so as not to impair stability.
- Keep the product away from naked flames or extreme temperatures to avoid damage.
