Article Numbers: 657067, 657006, 656948, 658266, 658190, 658106

Safety Instructions:

- The shelving must be secured against tipping in accordance with DGUV Rule 108-007 (BGR 234) if the height/depth ratio is greater than 5:1 (e.g. by wall or base anchoring).
- The maximum load of 250 kg per shelf must not be exceeded and must be evenly distributed.
- Regularly check the stability and safety of the shelving, especially when changing the height or number of shelves.
- Ensure that all parts are properly assembled and that the assembly instructions are followed to ensure stability.
- Only use suitable and stable surfaces for installing the shelf.
- All parts should be checked for damage before use.
- The shelf is only suitable for single-sided use.
