Safety Instructions:

- There is a risk of suffocation from small parts in the drawers. Small parts can break off if handled incorrectly.
- Avoid serious injuries due to improper use or overloading of the worktop, load capacity: up to 600 kg.
- Safety information and instructions for use must be enclosed. The installation instructions must be read and followed before use.
- The workbench is only suitable for the intended use. Users should only use the workbench in accordance with the intended specifications.
- Take care not to drop heavy tools from a great height to avoid injury.
- Avoid contact with sharp edges of the workbench, especially during assembly or use.
- Ensure that the workbench is stable and is used on stable, level surfaces to prevent it from tipping or slipping.
- Keep children and pets away when using the workbench. The workbench is not suitable for use by children.
- Check the workbench regularly for cracks or other damage. Placing the workbench securely helps to avoid the risk of crushing or tripping.
- There is a warning: Due to its weight (up to 600 kg), the workbench can cause serious injury if moved incorrectly.
