Safety Instructions:

- Please ensure that the workbench is mounted on a stable, level surface to prevent it from tipping over and causing injury.
- Make sure that the total weight of 800 kg is not exceeded in order to avoid structural damage, stability problems and injuries.
- Avoid contact with sharp or pointed objects on the worktop to prevent injury.
- Keep the work area free of obstacles to minimise the risk of tripping and falling.
- Assembly should be carried out in accordance with the enclosed instructions to ensure that all parts are correctly assembled. Ensure that all screws and parts are securely fastened.
- Do not overload drawers and doors and load them evenly during use to prevent damage to the mechanism and tipping over.
- Be aware of the risk of crushing moving parts.
- Ensure that all parts are correctly fitted before use.
- Carry out cutting or assembly work with suitable personal protective equipment.
- The workbench is not suitable for children due to its weight and construction.
- Avoidance of dangerous causes of falls, in particular due to tools or work objects slipping off the work surface.
